

Do, Angel By My Side

In this life we all search for something
Something good and something oh so pure
Well I believe that if you find that one thing
You must fight, for then you will be sure

Chorus:

Could it be that I have found an angel
I can see heaven in your eyes
In my soul I never will be lonely
For there will be an angel by my side

There are times I never thought I'd make it
Never dreamed I'd find someone like you
could be there when days were at their darkest
Watching over everything I do

Chorus:

Could it be that I have found an angel
I can see heaven in your eyes
In my soul I never will be lonely
For there will be an angel by my side

Could it be that I have found an angel
I can see heaven in your eyes
In my soul I never will be lonely
There will be an angel by my side

In my soul I never will be lonely
For there will be an angel by my side
