

# Do, Follow Me

Light comes in and watch you wake  
needing you so much, my heart could break  
to touch your skin, to feel your hair  
I'll follow you anywhere

light goes out, I watch you sleep  
then imagine the love so deep  
I close my eyes, I breathe the air  
I'll follow you anywhere

let the waves watch over you  
watch over me  
follow me  
I'll follow you  
'till your dreams to secret places  
is my hand just taken  
I'll show you what to do  
I'll follow you

nobody knows who made the stars  
maybe the whole world is ours  
from better here and neither there  
I'll follow you anywhere

let the waves watch over you  
watch over me  
follow me  
I'll follow you  
'till your dreams to secret places  
is my hand just taken  
I'll show you what to do  
I'll follow you

hmm  
ooh oow  
hmhhh  
woow follow me  
I'll follow you  
'till your dreams to secret places  
is my hand just taken  
I'll show you what to do

yeahyeah

follow me  
I'll follow you  
'till your dreams to secret places  
is my hand just taken  
I'll show you what to do

I'll follow you
