

# Do, I Believe In Love

You are my life you are my love  
Now I've found you never want to be without you  
You know my heart you were my lover  
Lying with me sleeping softly  
There's no doubt inside my mind I really know  
Just hold my hand and I will never let you go

I believe in love

But as this night comes softly down  
As it surrounds us I need you now  
There will be times some vain will fall  
I'll be your shelter I'll fill your soul

There's no doubt inside my mind I really know  
Just hold my hand and I will never let you go

Chorus:

I believe in love, I believe in love  
There's no way I'll lose my faith in you because  
I believe in love

Close your eyes feel me now  
I will never let you down  
Close your eyes feel me now  
I will never let you down

Chorus:

I believe in love, I believe in love  
There's no way I'll lose my faith in you because

I believe in love, I believe in love  
There's no way I'll lose my faith in you because  
I believe in love

I will never let you down  
Close your eyes feel me now  
I will never let you down
