

Do, Should I

Just you and me, lost inside of love
Feeling ecstasy and we cannot get enough
You move in closer now and it's driving me crazy
Try to hide it somehow but I lose my self control

Should I just let it go
Should I get tight with you

Give to me give to me, talk to me talk to me
Baby you can show me what this love is all about
Give to me give to me, talk to me talk to me
Maybe you can show me what this love is all about

So here we are, pure in the moment
This is our time, don't let it get away
I look into you eyes, tell me what I want to know
Now wont you look into mine and you'll see the love it shows

Should I just let it go
Should I get tight with you

Give to me give to me, talk to me talk to me
Baby you can show me what this love is all about
Give to me give to me, talk to me talk to me
Maybe you can show me what this love is all about

Should I just let it go
Should I ? Cause I really don't know

Let me give you everything I want to give you
Let me take you to the place I want to take you to
Let me show you all the things I want to show you

Give to me give to me, talk to me talk to me
Baby you can show me what this love is all about
Give to me give to me, talk to me talk to me
Maybe you can show me what this love is all about
