

Doda, Drinking

You know that I got a touch
In a second make you high
Got it all inside my veins, hmmm
I could drop and give you up
Maybe take you for a ride
Oh, I love making you chase

In the darkness
I'm the queen, I am your goddess
I got everything you're wantin' to love
Call me heartless
But all is fair in love and war
And what you got for me is never enough

Oh, I been drinking
Sipping on you all night
Dripping in milk and ice
You taste so good
I been drinking (I been drinking)
Sipping on you all night
Dripping in milk and ice
You taste so good
I been drinking

I been drinking
I been drinking
Dripping in milk and ice
You taste so good I been drinking

Keep it flirty, treat me rough
Pop that cherry like I'm wine
Soak the sheets upon the bed, hmmm
Down and dirty, make me ugh
Got my lipstick down your spine
69 kisses of red

In the darkness
I'm the queen, I am your goddess
I got everything you're wantin' to love
Call me heartless
But all is fair in love and war
And what you got for me is never enough

Oh, I been drinking
Sipping on you all night
Dripping in milk and ice
You taste so good
I been drinking (I been drinking)
Sipping on you all night
Dripping in milk and ice
You taste so good
I been drinking

I been drinking (I been drinking all the time)
I been drinking (so good)
Dripping in milk and ice (all night)
You taste so good I been drinking
