

# Donavon Frankenreiter, Call Me Papa

Moon comes up and the moon goes down  
Another sleepless night, another sleepless town  
But I got you, I got you

Whenever I think about what I lost  
I change my mind instead to what I've still got  
Because I've got you, I said I got you

You can call me papa, and ill call you baby  
Don't forget your mamas my, baby too  
Wherever you go, whatever you do  
I will be there, I'll be there for you

Soon enough you know ill be around  
But that ai'nt soon enough because it ai'nt right now  
And I need you, I said I got you

When you close your eyes and you drift to sleep  
From time to time I hope you run into me  
I'm thinking of you, I hope you see me too

You can call me papa, and ill call you baby  
Don't forget that your mamas my, baby too  
Wherever you go, whatever you do  
I will be there, I'll be there for you  
You know I will now

You can call me papa, and ill call you baby  
Don't forget that your mamas my, baby too  
Wherever you go, whatever you do  
I will be there, I'll be there for you  
You know ill be there, I said ill be there
