

Dorian Electra, Career Boy

career boy
working overtime
whit on ething on my mind

cheap office coffee stays pumping through my veins
I work for the man
but you know I love the chains
I can never fight the feeling
I stay up all night
working so hard after hours
till I see the sunlight
stuck up in the office tower
you know it's pure joy
and that's my super power
I'm a career boy

career boy
you know they got my working overtime
career boy
and you know I got that one track mind
even after I get what I want I can see baby, baby
that's it's lonely at the top
career boy
nothing is ever gonna make me stop

business and pleasure
I like to mix the 2
hanging in the break room mixing it with you
I can never fight the feeling
I stay uup all night
working so hard after hours
till I see the sunlight
stuck up in the office tower
you know it's pure joy
and that's my super power
I'm a career boy

career boy
you know they got my working overtime
career boy
and you know I got that one track mind
even after I get what I want I can see baby, baby
that's it's lonely at the top
career boy
nothing is ever gonna make me stop

I'm addicted to the work
I love to the way it hurts
the suits and pencil skirlts
I get what I need
cause I am greedy for it
cas I;m addicted to the pressure
but the burden is a pleasure
so come on hit me with you ledger
close to the edge
face down on the desk I'm

career boy
you know they got my working overtime
career boy
and you know I got that one track mind
even after I get what I want I can see baby, baby
that's it's lonely at the top
career boy

nothing is ever gonna make me stop
