## Doro Pesch, Love Song

Okay

Dreams of Xanadu Like a rainbow in the sky I wil lead you to heaven Close your eyes just let me try

You will listen to my voice You will listen to my whisper

Sweet emotions fill my love song And it's only for you It's only for you

Every song I sing Is a love song for you!

This song I sing Is a love song for you!

A love song for you

How I cherish your touch Believe in you so much You're my island in the setting sun And the waves just drift along

How I feel for you I cannot forget you

It's not hard to understand me The way I show my love
