

Dottie West, Where Love Is

Since I have known you there's a shadow hanging over you
Keeping you from scene that you might need me
It's too bad that you're not glad for I could take you to the place where love is
Someone you loved another time is standing in the way of mine
Wishes that I have to try and mend to pieces
But I know that it's too late I'll never take you to the place where love is
Where love is you will never know you are the kind to love one time and not let go
You don't know how much I wish that you would give just one kiss
And open up your heart to me so I could enter
But if I could only get you there you might find you'd like to share where love is
