

Dr. SWAG, LA LA LOVE

Big blue eyes, like the sky at the summer
Fall in love one more time in the garden
I got love, I got you
And all my dreams come true
Fall in love, it's a truth that my heart beats for you

Heart goes la la la, only you and I
Will you stay with me forever?
Heart beats la la la, now I touch the sky
Cause you make my life fits better

Heart goes la la la, only you and I
Will you stay with me forever?
Heart beats la la la, now I touch the sky
Cause you make my life fits better

One more touch from the night
When we're dancing with the stars
But the sun shinning glass in the bubbles
I got love, I got you
And all my dreams come true
Fall in love, it's a truth that my heart beats for you

Heart goes la la la, only you and I
Will you stay with me forever?
Heart beats la la la, now I touch the sky
Cause you make my life fits better

Heart goes la la la, only you and I
Will you stay with me forever?
Heart beats la la la, now I touch the sky
Cause you make my life fits better
