

Drag On, Rain

Well it's a happenin' thing
And it's happenin' to you
Full moon and thunder
Ribbons of blue
Ice on the window
Ice in my heart
Foolin' with thunder
Every time we start

It's been rainin' for so long
It's been rainin' for so long

Well isn't it a wonder
The streets are dark
Isn't it a wonder
We fall apart
Day after day straight rain falls down
All over town, rain come

It's been rainin' for so long
It's been rainin' for so long

Don't you go out in the rain
Don't go out in the pourin' rain
If you go out in the rain
You never get that time again

Isn't it a wonder
Streets are dark
Isn't it a wonder
We fall apart

All these feelings they seem so wrong
Remember, we were so strong
It's been rainin' for so long
It's been rainin' I can't go on

Don't you go out in the rain
Don't go out in the pourin' rain
If you go out in the rain
You never get that time again

Don't you go out in the rain
Don't go out in the pourin' rain
If you go out in the rain
You never get that time again
