

# Drake, Summer Sixteen

Looking /8x

Looking for revenge  
All summer sixteen  
All summer sixteen  
Playing dirty not clean  
Out in front of Four Seasons  
Looking like a damn football team  
All in the same thing  
All repping one thing  
Looking for revenge

To do what you couldn't do  
Tell Obama that my verses are like the whips that he in  
They bulletproof  
Minus twenty we in Pitt, feel that  
Case catching in a Canada goose  
Famous as fuck but I'm still in the cut when they round up the troops  
I'm just a sicko a real sicko when you get to know me nigga  
I let the diss record drop you were standing right below me, nigga  
We must have played it a hundred times, you was going to bed  
Why would I put on a vest I expect you to aim for the head?  
I coulda killed you the first time  
You don't have to try to say it louder nigga  
We could hear you the first time  
It's nothing personal I would have done it to anyone  
And I blame where I came from  
And I blame all my days ones  
You know chubs like Draymond  
You better off not saying 'Nothing'  
Them boys they a handful  
Then I hit 'em with the Hotline  
Chris Breezy with the dance moves  
Moji with the dance moves  
Ab-boy with the dance moves  
Jimi Hendrix with the solo  
Those the strings that you can't pull  
Yeah, and I could really dish it out  
Come and get it from the source  
Fuck with all the word of mouth  
Golden State running practice at my house  
Nigga, what am I about?  
You gon' really feel it now  
I'm out here

All you boys in the new Toronto want to be me a little  
All your ex's know I like my Ov's with a V in the middle  
You would love it if I went away or didn't say nothing else  
How am I keeping it real by keeping this shit to myself?  
You was never gang, gang, gang, gang, you was never one of us  
Had us fooled for a minute now we done all grown up  
But I'm better off anyway, y'all never gon' finish Drake  
Say you seeing 'bout it when you see me man y'all never home anyway  
Thought of things that you shoulda said, said things that you shouldn't say  
We even gave you the whole money play and ya'll still broke to this day

“Oh it’s your time now” - that’s what everybody say  
Used to wanna be on Rocafella but I turned into Jay  
Now I got a house in L.A., Now I got a bigger pool than Ye  
And look man, Ye’s pool is nice, mine is just bigger is what I’m saying  
I’m that nigga’s what I’m saying  
Getting things done around here  
I’m not even from around here  
Six, six, six, six soon as I’m back in the city they throw a parade  
I might get a key to the city and give it to Wayne  
Or give it to one of the young boys to carry the wave  
So trust me, they’ll be out here
