

# Dua Lipa, Lost In Your Light (ft. Miguel)

Over and over  
Waves of frightening feelings  
Floating weightless  
I'm willing  
My will keeps bending and breaking

Honey!

Hold me, trust me  
Let me ride in your love all night  
Baby  
Hold me, touch me  
I wanna die in your love all night,

Lost in your light  
I wanna stay right here all night, baby  
Let's get lost in the light, baby  
I wanna stay right here all night, baby

Now, everything is vivid, vivid  
Touch attempted with pleasure  
Reckless, tangled, suspended  
You want it all  
Nothing wasted

Woman!

Hold me, trust me  
Let me ride in your love all night  
Baby  
Hold me, touch me  
I wanna die in your love all night,

Lost in your light  
I wanna stay right here all night, baby  
Let's get lost in the light, baby  
I wanna stay right here all night, baby

Midnight  
Your eyes  
Bitter wine  
Conversations  
You and me  
Some money, pay  
I don't need a paycheck  
One taste and I'm hooked on it  
Don't laugh  
I know you want it  
I'm addicted to your light
