

Dua Lipa, Running

[Verse 1]

You, you turned gold to dust now
What was trust is lost now
What is all this darkness you have inside?
I just can't ignore it
From my heart, what's pouring
Cause this thing I can no longer hide

[Pre-Chorus]

Baby, it's the last time
It's the last time I'm 'bout it, 'bout it
Check you with the flashlight
It's the last night you get up on it
If you wanna save it, ooh
Better shoot straight like a laser, ooh
I ain't waiting for you, you

[Chorus]

Now I'm
Running for my life
Been too many nights
Tryna find the road to you
Cause you
You just wanna drive
With no place in mind
Where the hell we going to, oh?
I'm running, running
Got me running, running, ooh
I'm running, running
Got me running, running, ooh

[Verse 2]

Barrel, love, a gun, pow
I'll be on the run now
What is all this darkness you have inside?
I just can't ignore it
From my heart, what's pouring
Cause this thing I can no longer hide

[Pre-Chorus]

Baby, it's the last time
It's the last time I'm 'bout it, 'bout it
Check you with the flashlight
It's the last night you get up on it
If you wanna save it, ooh
Better shoot straight like a laser, ooh
I ain't waiting for you, you

[Chorus]

Now I'm
Running for my life
Been too many nights
Tryna find the road to you
Cause you
You just wanna drive
With no place in mind
Where the hell we going to, oh?
I'm running, running
Got me running, running, ooh
I'm running, running
Got me running, running, ooh
I'm running, running
Got me running, running, ooh
I'm running, running

Got me running, running, ooh

[Bridge]

So watch it blow

When I let it go

When I cut this rope and run, run

By the time you wait

It'll be too late

Now the bullet's left the gun, yeah

[Chorus]

Now I'm

Running for my life

Been too many nights

Tryna find the road to you

Cause you

You just wanna drive

With no place in mind

Where the hell we going to, oh?

I'm running, running

Got me running, running, ooh

I'm running, running

Got me running, running, ooh

I'm running, running

Got me running, running, ooh

I'm running, running

Got me running, running, ooh
