

Duff McKagan, Put You Back

You walked the ocean

You crossed the sea

Sands of the desert

Sands beneath your feet

(chorus)

They wanna put ya back down

They wanna put ya back down

They wanna put ya back down

They're not gonna let you through

Time turns to hours

Days into weeks

Stars seem to guide him

Into the east

(chorus)

(bridge)

Did you leave anyone

Your mother must be missin' her son

Is anybody waitin' for you

Or is this somethin' new?

Live without money

Live without home

Die without water

slowly, lost I

(chorus)
