

# Duran Duran, last Night in the City (featuring Kiesza)

I'm not gonna sleep tonight  
Till the morning fills the sky  
No one's getting left behind  
This is our time /2x

We're gonna live this night,  
Live it like it's our last night  
Cause nobody cares  
If there's no tomorrow

I'm not thinking about the future  
It's somewhere out there  
We're all busy being human  
We remember  
Hearts is spinning all around on me  
Together  
Now they're surrounding me  
This is how we get connected  
Running out the shadows into light!

We're gonna live this night,  
Live it like it's our last night  
Cause nobody cares  
If there's no tomorrow  
We're gonna love this night,  
Loving like it's our last night  
Stars up in the air,  
It's our last night in the city!

I've been traveling around, now  
Big world with my brothers  
Always moving to a new town  
No time to put the roofs down  
We can't stop believing, can't stop  
Now we believe in you  
Cause when you're standing in the spotlights  
The only thing that matters is tonight!

We're gonna live this night,  
Live it like it's our last night  
Cause nobody cares  
If there's no tomorrow  
We're gonna love this night,  
Loving like it's our last night  
Stars up in the air,  
It's our last night in the city!

Last night in the city /2x

I'm not gonna sleep tonight  
Till the morning fills the sky  
No one's getting left behind  
This is our time

We're gonna live this night,  
Live it like it's our last night  
Cause nobody cares  
If there's no tomorrow  
We're gonna love this night,  
Loving like it's our last night  
Stars up in the air,  
It's our last night in the city!
