

# Eagles Of Death Metal, Already Died

Yes it's been a long damn time  
Ain't been around cos' I work for my money!  
I'd love to stay but i'm really runnin' short on time  
And I hear you've got a new man  
He's like a new-age hippie  
And he's rollin' in the money  
No...I don't really hold a grudge  
It's just hard for me...

I feel like you already died...  
I feel like you already died...  
I feel like you already died!...  
I know it works out bad sometimes  
I'm glad we're friends  
Cos' we're hateful as lovers  
I walk away knowing everything I said was lies!  
My heart and my mind have been all twisted...  
I can't get no sleep...  
I found the lighting in the grass line!...  
There's a blackness passing over me  
I've been transformed...
