Earshot, Should've Been There

I hope I'm not too late
I hope that you're ok
I left in a hurry
As soon as they told me
So I prayed for you
Hang on 'till tomorrow
Just dont leave me here today
I'm coming home to you...

(Should've been there)
Should've been there I wanted to
(Should've been there)
Should've been there right next to you
(Should've been there)
Should've been there to comfort you
(Should've been there)
Should've been there to sing to you
(Should've been there)
Should've been there
Should've been there hold your hand
(Should've been there)
Should've been there

After all that we've been through Yes it's hard to say goodbye And what I wish right now Is to somehow turn back time With all of the love & Double That I hold right here for you Hang on 'till tomorrow Just dont leave me here today I'm coming home to you...

(Should've been there)
Should've been there I wanted to
(Should've been there)
Should've been there right next to you
(Should've been there)
Should've been there to comfort you
(Should've been there)
Should've been there to sing to you
(Should've been there)
Should've been there hold your hand
(Should've been there)
Should've been there)
Should've been there to be with you...

Should've been there Should've been there Should've been there Should've been there

After all that we've been through...
