

Ed Harcourt, Kids (Rise From The Ashes)

Kids you're our only hope
Save us now we need an antidote
Kids get out on the streets
Through the smoke rise through the city heat

You loved me like a friend
But now I can't pretend
The time we used to spend
Was wasted on you

Police sirens make me deaf
As I run trying to catch my breath
What's the world afraid of now
We are taught to clap our hands and bow

You loved me like a friend
But now I can't pretend
The time we used to spend
Was wasted on you

Rise from the ashes with a song to remember
Rise from the ashes with a song to remember
Rise from the ashes with a song to remember

Kids you're our only hope
Kids
