

# Ed Sheeran, Leave Your Life

If I forget to say goodbye  
Before I catch the plane  
Would you know the way that I  
Feel when I'm away  
We'll see the same sky tonight  
But the stars are out of place  
You'll never know the weight of my heart  
Every time I leave you babe

It's hard to break the landing  
But I'll see you again

I'm never gonna leave your life  
Even at the times I'm miles away  
You are always on my mind  
Forever and now I will be by your side  
I know we can change from day to day  
But this love'll keep alight  
I'm never gonna leave your life

Oh I could never tell you Ly  
Or put in words your finest traits  
The darkest green and hazel eyes  
And yet I can't describe the shade  
You are all this heart of mine  
And there you will remain  
You'll never know the weight of my decisions  
When I leave your smiling face

It's hard to understand it  
But I'll see you again

I'm never gonna leave your life  
Even at the times I'm miles away  
You are always on my mind  
Forever and now I will be by your side  
I know we can change from day to day  
But this love'll keep alight  
I'm never gonna leave your life
