

Ed Sheeran, Overpass Graffiti (Equals)

This is a dark parade
Another rough patch to rain on,
To rain on
I know your friends may say:
'This is a cause for celebration'
Hip-hip-hooray, love!

The photographs in sepia tones
So still the fire's barely fighting the cold, alone
There were times when I could feel your ghost
Just when I'm almost letting you go
The cards were stacked against us both

I will always love you for what it's worth
We'll never fade like graffiti on the overpass
I know time may change the way you think of us
But I'll remember the way we were
You were the first full stop love that will never leave
And baby you will never be lost on me

This is a goddamn shame
I never wanted to break it
And leave us tainted
Know I should walk away
But I just can't replace us
Or even erase us

The car was stuck the engine stalled
Both of us got caught out in the snow alone
There were times when I forgot the lows
And think the highs were all that we'd ever know
The cards were stacked against us both
I will always love you for what it's worth
We'll never fade like graffiti on the overpass
I know time may change the way you think of us
But I will remember the way we were
You were the first full stop love that will never leave
And baby you will never be lost on me
Lost on me
Baby you will never be lost on me
Lost on me

I will always love you for what it's worth
We'll never fade like graffiti on the overpass
I know time may change the way you think of us
But I'll remember the way we were
You were the first full stop love that will never leave
And baby you will never be lost on me

Lost on me
Graffiti on the overpass
