

# Edgewater, As If You Know Me

I collect myself from falling down  
Disengage to rearrange myself without your fate  
And it rains  
And it rains

You say you know who I am  
You found the worst in me  
You find the way that I walk, talk  
Such an evil seed  
The sudden change that we make  
We will find peace  
The eyes we slash, the teeth we sink  
It's called identity

And I wonder, wonder  
What it is that you had said  
So just bite your tongue  
Save it for somebody else  
Spit me out and turn away  
'Cause I have better ways to spend my days

[repeats]

As if you know me
