

Edgewater, Inhale

yeah
you're shaking now
and falling out
and you can't take it
just breathe in
breathe out let it flow
just erase your mind
and take your time
yeah can't you feel it?
this one life
this time let it show

just breathe and bring yourself back to me
how can you let go?
of everything you meant to me
time to take it slow
no don't go

all you want's a taste you can't erase
it's taken over
just one chance
last stand
take it slow
tired of waking up feeling down
and you can't take it
well strike back
take that
let it show

just breathe and bring yourself back to me
how can you let go?
of everything you meant to me
it's time to take it slow

it's your last chance to take your stand
god only knows
the time has come
what's left undone?
how can you let
how can you?

just breathe
you gotta fight to make it through this
you can't leave me
how can you let
how can you let go? just breathe and bring yourself back to me
how can you let go?
of everything you meant to me
it's time to take it slow

it's your last chance to take your stand
god only knows
the time has come
what's left undone?
how can you let
how can you?

just breathe
you gotta fight to make it through this
you can't leave me
how can you let
how can you let go?
