

# Edguy, Superheroes

City lights are calling - slowly coming back to life  
Speeding in the fastlane - Mama let us waste no time  
Devil in the doorway - selling any kind of hell  
We're just coming out to play the game

And we never cry for love  
We're superheroes  
We are back where we belong  
We never cry for pain  
We're superheroes  
Make a stand where we belong

Way too long I've tried to be what I could never be  
For too long you've rolled the dice  
But you can't control me  
I ain't talking about romance  
you may fiddle I may dance  
Anyway it's just a game we play

And we never cry for love  
We're superheroes  
We are back where we belong  
We never cry for pain  
We're superheroes  
Make a stand where we belong

You gotta move to stay alive  
We're gonna rock the bash tonight..

Cry for love - We're superheroes  
We are back where we belong

And we never cry for love  
We're superheroes  
We are back where we belong  
We never cry for pain  
We're superheroes  
Make a stand where we belong
