

# eels, Old Shit/New Shit

Everyone loves you  
Nobody cares  
An awful collection  
Of enemies and friends  
Congratulations to you  
With sad regrets  
I'm tired of the old shit  
Let the new shit begin

The psychic pain  
Of living in this world  
Is overwhelming me  
Again and again  
A beautiful afternoon  
Inside you in your bed  
I'm tired of the old shit  
Let the new shit begin

Nobody loves you  
Everyone cares  
None of them know what's  
Coming 'round the bend  
Congratulations to me  
Many happy returns  
I'm tired of the old shit  
Let the new shit begin
