

# eels, The Stars Shine In The Sky Tonight

I can't live in a world that you have left behind  
Seen a lot, been through too much  
But this is where i draw the line

It's not where you're coming from  
It's where you're going to  
And i just wanna go with you

December is a lonely month  
In a year of lonely days  
It's hard to tell which way is up  
Or down or out  
Or through the haze

People cheat and people lie  
While you just watch it all go by  
Counting days until you die

The stars shine in the sky tonight  
Like a path beyond the grave  
When you wish upon that star  
There's two of us you need to save

It's not where you're coming from  
It's where you're going to  
And i just wanna go with you
