

# Effigy, Bluffing

In a moment, something will happen  
It will last forever and we won't know what it is  
What is it, am I bluffing  
See my face is the place where the hate goes  
I hate my friends  
I tie you up and leave, well you wanted something new  
Something no one else would do for you  
Is it real, am I bluffing  
See my face is the place where the hate goes  
I hate my friends  
I hate my friends
