

# Efi, Good Enough for You (piosenka na Eurowizja)

Shooting stars  
- it's always been you I'd asked for  
Heal the scars  
that's all I've been begging for

can't get you  
out of my sick mind  
waiting here  
till I cross the line

Tonight new spotlights burn my skin  
another makeup seems so real  
and I no longer know what's true  
I wonder if I'm good enough for  
you  
I wonder if I'm good enough for  
you

Counting steps  
I swear it's just bad blood we've made through  
Manifest  
keep it low-key, it's just you I'm into

can't get you  
out of my sick mind  
stuck in here  
till I cross the line

Tonight new spotlights burn my skin  
another makeup seems so real  
and I no longer know what's true  
I wonder if I'm good enough for  
you  
I wonder if I'm good enough for  
you

try me  
never wanted their attention  
no hype, no clout  
try me  
never wanted their attention  
no hype  
I wonder if I'm good enough for  
you
