

# Eggstone, Beach Boy

you need some good vibrations  
a holiday in the sun  
whatever you might need  
now it's the time to find it  
just shut your mind out for a while  
an island in the sun  
she's looking good  
the sunwashed streets go down  
down to the ocean  
now she turns on her charm  
the way you like  
you make it all the time  
and watch the sun go down  
relaxing in the sun  
splash, in the sun-warmed water  
the beach's so white it hurts your eyes  
you're spending lazy days  
you watch the boys go surfing  
just shut your mind out for a while  
you watch white brakers crash  
on the palm-lined beach  
an easy way of life  
life by the ocean  
now she turns on her charm  
the way you like it  
you make it all the time  
and watch the sun go down
