

Elbow, Don't Mix Your Drinks

Don't mix your drinks
Don't mix with him
It will kill you one day
Good advice, sound advice
Why can't you be
Like him, like me
Look what you could achieve

I'm coming cap in hand
Begging you to listen
Something draws me in
And I just can't christen it
Just can't christen it

Don't mix your drinks
Don't mix with him
It will kill you one day
Good advice, sound advice
You need to be
Like this, like me
Look what you could achieve

I'm coming cap in hand
Begging you to listen
Something draws me in
And I just can't christen it
Just can't christen it
