

Electric Gaudi, Sweet Sung Song

Over now
It's taking me
Over now

Sweet Sung Song of the traffic flow
Round my head I need to know
Please be mine forever

I know myself at the fading light
Can bathe me, hold me safe to the night
I'll Awake and change forever

Peace in the world
A love in the sky
Is taking me over
And I know it's here
I know it's right

Over now
It's taking me
Over now
It's taking me
Over now
And I'm eternally yours

I know myself at the fading light
Can bathe me, hold me safe to the night
I'll Awake and change forever

Peace in the world
And love in the sky
Is taking me over
And I know it's here
I know it's right

Over now
It's taking me
Over now
It's taking me
Over now
And I'm eternally yours

Coke and Cane and Autumn rain..
