## Electric Light Orchestra, Easy Money

One, two, three...

Tell me I'm mistaken I must be kinda slow But the only time you ever cared Was when you needed more ... easy money, easy money You got out of control and you sold your soul for easy money

If you see a sucker standing at your door Bring him in and make him grin Then take him to the store Easy money, easy money Watch out from above You broke into the bank of love Easy money

Some people never learn to stop when they've had enough Easy money, easy money Some people only have to shop when the going gets tough

I've come to the conclusion it's like the old man said The only thing you gave me was shit and promises Easy money, whoa whoa whoa, easy money One day you'll have to earn all the money that you burn Easy money

Take it, Jeff...

Easy money

Wha, wha, yeah

Some people never learn to stop when they've had enough Easy money, easy money Some people only have to shop when the going gets tough

Funny thing about it Don't even make me blue 'Cause there's no better deal around Than saying goodbye to you Easy money, easy money

You snatched that cash right into your stash, easy money You got out of control and you sold your soul for easy money Easy money, woo woo woo, easy money
