

# Electrosy, Lost In Space

Tell me what the spaceman said in nineteen sixty-seven  
Tell me what my mother said when I was too young to listen

I'm lost in space, I'm lost in time

Tell me what the spaceman said when they looked up to heaven  
Tell me what the angels say cause I don't think I'll be one

I'm lost in space, I'm lost in time

I don't need your lullabies  
Oh i don't believe in alibis  
Don't believe in sad goodbyes  
I believe it, yeah

Tell me where the spacemen go, cause I think I'll go join them  
Tell me where the wise men go, cause I think I'll go be one

I'm lost in space, I'm lost in time

I don't need your lullabies  
Oh I don't believe in alibis  
Don't believe in sad goodbyes  
I believe it, yeah

Someone show me where to run  
Show me where I'm coming from  
Someone show me where I'm going wrong  
Someone show me what I've done  
Show me what I'm counting on  
Someone show me what I'm doing wrong

I'm lost in space, I'm lost in time
