

Elephant Man, 2 Hearts

Out of dreams
into my life

Sweetest thing
beneath blue skies

As we dance across the
borderline
every breath, touch, a
thousand smiles

Here in this life we are two hearts on fire
Light of my life (is what you are)

we are two hearts on fire

Right here tonight
we are two hearts on fire
A breath of life (is what you are)
we are two hearts on fire

Touch of hands
two worlds collide

Time stood still
for you and I
borderline
Every breath, touch, a
thousand smiles

Here in this life
we are two hearts on fire
Light of my life (is what you are)
we are two hearts on fire

Right here tonight
we are two hearts on fire
A breath of life (is what you are)
we are two hearts on fire
