

# Elevation, Let It Ring Out

I paint no illusion  
Tell you no lies  
A new day is breaking  
Underneath skies  
Say goodbye tonight cause  
In the morn we leave it all behind

You gotta million reasons why  
Let em in and let em out  
Cause if you know you got it  
You gotta let it ring out  
You gotta keep the dream alive  
Let it in, let it out  
Cause if you know you got it  
You gotta let it ring out

Any angels  
Left in the world  
It's too dark to see her  
But you can feel the wind she whirls  
In her wings that cover us  
You gotta believe me  
I'm right by your side  
I'll carry you across the current  
To the other side  
Say goodbye tonight cause  
In the morn we leave it all behind

Like a songbird  
In the morning  
Like a hurricane  
With no warning  
Like a funeral  
With no mourning
