

# ELIO, CHARGER (ft. Charli XCX)

God, that's so classic  
I am 3% away from being stranded  
The way i left was way too cinematic  
The realization hadn't even landed  
God Fuckin' dammit

Don't wanna be put back  
Back in a moment where  
I'd wanna change my own mind  
Already got my bags  
Already cleared the air  
Do i even need it taht bad?

And i wanna come back  
Cause i left me  
Left my  
Left my charger  
I don;t wana go back  
It'll make  
It'll make  
It'll make  
Make it harder  
Should be by the bedside adn  
If i am right  
On the left side  
That'll make it  
It'll make  
It'll make  
Make it harder
