

# Ellie Goulding, Like a Saviour

Seein' with my shadow  
Tryin' to find my faith in tomorrow  
Tired of holding on to the memories  
How I used to bleed for love  
Got sick of the battle  
Cleaned myself, I hoped for the better  
Calling out for someone to rescue me  
And you danced into my life

Beautiful visions come to me  
And they stay forever and ever  
Electric feelings keep me dreaming  
I won't let go, oh, oh

Spinning in your starlight  
You got the power to ease my mind  
You're leading me out of the dark  
Like a saviour, shining in my soul, oh, oh

Like a saviour, we're out of the dark  
Like a saviour, out of the dark

Shot with your arrow  
Suddenly, I feel I can let go  
Of all the insecurities weighing me down  
Now I'm ready to drown in you, you

Beautiful visions come to me  
And they stay forever and ever  
Electric feelings keep me dreaming  
I won't let go, oh, oh

Spinning in your starlight  
You got the power to ease my mind  
You're leading me out of the dark  
Like a saviour, shining in my soul, oh, oh  
Spinning in your starlight  
You got the power to change my life  
You're leading me out of the dark  
Like a saviour, shining in my soul, oh, oh

Like a saviour, I'm out of the dark  
Like a saviour, we're out of the dark

Spinning in your starlight  
You got the power to ease my mind  
You're leading me out of the dark  
Like a saviour, shining in my soul, oh, oh

Spinning in your starlight  
You got the power to ease my mind  
You're leading me out of the dark  
Like a saviour, shining in my soul, oh, oh

Like a saviour, I'm out of the dark  
Like a saviour, out of the dark

Woah, woah
