

# Elliott Smith, Blue Mood

You said this will never do  
Every time I call I know it's true  
The jump is not my specialty  
Confusion makes most sense to me  
You only like me when I'm in a blue mood  
You say you see my soul's only seeing red  
You said this was how you knew  
That these things never last  
But you're just talking out your ass  
And I'm just gonna let that pass  
You, you only like me when I'm in a blue mood  
Alls you want is your own shadow in my head
