

Elliphant, Had Enough

When i saw you
You where alone there looking heavy at the bar
Mm
Yeah, i gad to ask you
What's your name
Where you from
And who you are

And all i got was get away
Leave me alone
Whatever you say
I donn't want to know
Please just go
But i stayed
How could i leave
I wouldn't let you hold me down
Like this no more
No more
