

# Elliphant, Spoon Me (Feat. Skrillex)

Sipping bad habits in the break of day  
Trip on fast lovers that come get with me  
Looking damn hard to find an easy way, easy way

I gotta woke my demons need a fresh air  
Keep them in their leash, they're much strong and wild  
Far to where I'm heading cause I need a ride, need a ride

So spoon me, spoon me tonight  
Spoon me, baby, you can spoon to die  
Spoon me, hands on my boobie  
Spoon me, dick on my booty now  
/2x

Spoon me, hands on my boobie  
Spoon me, spoon me tonight  
/2x

Pulling up roots, ripping your cocoon  
Spread the wings wide, let our spirit bloom  
Down we make love in the purple gloom, purple gloom

You better let your dream around some time to play  
Pretend of what you need and what you tied away  
Get ready for the storming and baby climate will break, climate will break

So spoon me, spoon me tonight  
Spoon me, baby, you can spoon to die  
Spoon me, hands on my boobie  
Spoon me, dick on my booty now  
/2x

Spoon me, hands on my boobie  
Spoon me, spoon me tonight  
/2x
