

Elsiane, Mend (To Fix, To Repair)

I never meant to go
I never meant to fall but I'm only gone
I never meant to go I'm only gone inside my own
Some day I'll wake you
Some times I'll wait for myself
Some day I'll hold you through
Tonight I'm alone to go high
Tonight I'm alone to go high
Tonight I'm alone to go
In state of confusion you made an illusion
State of confusion you made an illusion
It is exciting to be away
Feeling you all inside of me
I'm standing here but I'm really gone
You see me as I go
You've been precious to me
I've been blessed in the way
But Now I'm falling I'm inside
