

# Elysium, Dreamlands

dreams they enlight the shadow you hide  
no more dead past  
you leave it behind  
end sentimental poems in cold jester's game  
with nightmare sunsets you fade away  
freezing alone  
forlorn defeat  
enter them now...  
dreamlands  
for every dying tear is a broken dream  
those empty hearts  
new sorrows rise  
this raging storm is our last caress  
colossal pain  
the blind embrace  
freezing alone  
forlorn defeat  
enter me now...  
dreamlands  
I am the master  
ruler of this play  
I know your fear  
and I can feel your pain  
now take my hand  
through dancing flames  
towards Elysium  
we'll go  
end this life  
with just one word  
heavens close above  
falling fast  
you'll dive  
(into a) shallow grave inside
