

Elysium, Welcome Millennium

D.N.A. coded aggression
in millenium fever supermarkets
at lowest price sold out
via internet corrosive structures
are we ready to disarm
demons hiding in our minds
nevertheless those burning bridges
set the clock on golden age
our tongues bleed black
disconnected scientic centres
crisis, chaos & panic
our electrohearts refuse to beat
no turning back to zero point
2000 years a number too high
on rust covered liquid screen
soon we'll observe the final eclipse
megatowers stained skyscrapers
sunburnt shining forms
in bytes we speak
a lesson is learned
is everything prepared
for the dead earth blast
fasten your seat belts now
we're heading for the end
