

# Embodiment, Segue Station

turn the lights out, hard ties out and grope  
feed the body, break your oath and float  
i'm tired of dying for you  
and chatting with your ghost

no, you don't need it  
no, you should fight it  
no, you don't need it...no

bite the bullet, sear your flesh and blow  
take the ransom, don't look back and run  
she's tired of dancing for you and filling up your cup

no, you don't need it  
no, you should fight it  
no, you don't need it...no

close your eyes  
seal your grave

turn the lights out hard ties out and grope  
feed the body, break your oath and float  
i'm tired of dying for you  
and chatting with your ghost  
and no...
