Emeli Sandé, Family

No red light or dark night can stop me No wall no matter how tall can block me

Well the sun is out and the family's good And we're living life like we always knew we could It's lovely I took a little time out just to meditate and my spirit said why you always late? I'm sorry I've got a need for speed and a head for dreams But I had to slow down see the wood for the trees Breathe easy But now my energy's on 110 and I'm never gonna let them bring me down again Believe me

No red light or dark night can stop me No wall no matter how tall can block me

If you're feeling low know you'll rise again Got knocked down nine times but get up for ten You got this And though it seems like the night won't end The morning's right around the river bend I promise

No red light or dark night can stop me No wall no matter how tall can block me No red light or dark night can stop we No wall no matter how tall can block we

No no no way

Look at what I've found now It's a brand new feeling Feet lift off the ground Breaking through the ceiling Look at what I've found now This a brand new feeling Only way is up now Only way is up now We been getting higher We all learn to fly yeh Feet lift off the ground Breaking through the ceiling Oh look what I've found This a brand new feeling We've been learning to fly

No No

No red light or dark night can stop we No wall no matter how tall can block we
