

Emil Lassaria, Summer Sun (ft. Caitlyn)

I never thought that I could love you so much
Until you showed how deep is your love, is your love
The summer when you kissed me for the first time
It felt so good that I could not sleep anymore

It's summer in my heart
Uh in my heart

I guess I found my love
I was so blind, it was so close
When I saw at my door
I knew that it was you

There are the summer nights
You and I it's paradise
Hope you won't do me wrong
Feel in love, I feel in love

It's summer in my heart
Uh in my heart

I never thought that I could love you so much
Until you showed how deep is your love, is your love
The summer when you kissed me for the first time
It felt so good that I could not sleep anymore
