

# Eminem, Wild One

i'd like to ask you from the start  
if u could pull me out the dark  
or if our love would fall apart  
like cookies crumble  
see i'm a demon on the loose  
i'm like an engine with no caboose  
and i need somebody who can really handle me  
chorus (2x):  
yeah baby im a wild one  
don't let me run  
don't let me get away  
yeah baby im a wild wild one  
i just wanna let u know girl  
i'm attracted to ur physical  
but i got this lazy eye that likes to wander  
u see i'm tired of feelin alone  
so if u throw this dog a bone  
maybe you and i can make our house a home  
yeah  
chorus (2x)  
oh you could be the one who saves me  
or try to be the one who tames me  
girl you are the one who's changin my way of life  
i'm tired of paintin the town with ladies  
livin their lives fugazi  
i'm tired of all their lies  
i think i want some real love  
but girl u gotta realize  
chorus (2x)
