

Emmylou Harris, Beyond The Blue Ft. Patty Griffi

Away beyond the blue
Away beyond the blue
One star belongs to you
One star belongs to you
And every breath I take
And every breath I take
I'm closer to that place
I'm closer to that place
Yeah baby, I'm gonna meet you there
On the outskirts of the sky
Yeah baby, I'm gonna meet you there
And we will fly
Away beyond the blue
Away beyond the blue
One star belongs to you
This life is but a dream
This life is but a dream
Go gently down the stream
Go gently down the stream
