

Endymion, It's All Music

The whole thing is based on respect
Respect to the music
Respect to the djs
Respect to the crowd
And respect to one another

We have to remain in constant contact
But look around yourselves
We got every kind of person in this room
And they're not kicking fucking attitude
It's about music

Music never separated people
Noones style of music is better than the other
Noones style is truer than the other
It's all music, It's all music, It's all music
