

# Endymion, It's All Music

The whole thing is based on respect  
Respect to the music  
Respect to the djs  
Respect to the crowd  
And respect to one another

We have to remain in constant contact  
But look around yourselves  
We got every kind of person in this room  
And they're not kicking fucking attitude  
It's about music

Music never separated people  
Noones style of music is better than the other  
Noones style is truer than the other  
It's all music, It's all music, It's all music
